**Subject:** Support for Zionsville Historic Preservation Commission Ordinance

Thank you for working on this project

We live at 90 N 5th in the Village. I am in support of the creation of a commission.

I feel that the Village has history to try and preserve. From the Ghost Walk to the Zionsville Paint Out, our town has decided that the Village represents the heart of our community, and the history is important.

In new neighborhoods, like the one we lived in when we moved to Zionsville, they establish covenants to protect the community property value, safety and aesthetic. The Village has no such protections. One developer choosing to buy tear down properties to build their personal vision and the feel is gone and cannot be replaced.

Looking to strike the balance between homeowner freedoms, and preservation of a unique asset, I feel that a commission can help recommend a path forward that seeks to hear and address the needs.

THank you
